2.1 Basis of preparation

The condensed interim consolidated financial statements for the six months ended 31 December 2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)") 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim consolidated financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2023.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.2.

11 Fair value of financial assets and liabilities

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction, other than in a forced or liquidation sale.

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date,
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3: Unobservable inputs for the asset and liability

The carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy are as follows.

	Fair Value			Total SGD'000

Quoted equity securities	58	-	-	58
Unquoted equity securities	-	-	730	730
	58	-	730	788

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments of the Group and Company.

Equity investments – at FVTPL

The fair value of quoted securities is determined by reference to their quoted prices (unadjusted) in active markets for identical assets.

Unquoted equity securities

The fair value of unquoted equity securities is determined based on the net tangible assets, which approximate fair value, of the investees. The net intangible assets are then adjusted for the fair value of the property held which is based on independent valuations obtained by property valuers on an open market value basis.

The fair value of unquoted equity securities based on significant unobservable inputs (Level 3) will be measured by every end of the financial year.

Investment properties

Investment properties are measured at cost less accumulated depreciation and accumulated impairment losses. Fair value of investment properties will be measured and disclosed by every end of financial year based on independent valuations by property valuers on an open market value basis. The valuers used direct comparison and capitalisation methods. The market value has been categorised as a Level 3 valuation method.

Other financial assets and liabilities

The carrying amounts of financial assets and liabilities with a maturity of or reprice within one year (including trade and other receivables, cash and cash equivalents, financial liabilities and trade and other payables) are assumed to approximate their fair values because of the short period to maturity or repricing.

12 Property, plant and equipment and right-of-use assets

During the year ended 31 December 2024, the Group acquired property, plant and equipment, and right-of-use assets amounting to \$15,970,000 (31 December 2023: \$17,320,000) and \$2,085,000 (31 December 2023: \$3,132,000) respectively. Cash payment of \$15,970,000 (31 December 2023: \$17,320,000) were made to purchase property, plant and equipment. Property, plant and equipment, and right-of-use assets disposed/written off during the year ended 31 December 2024 amounted to \$264,000 (31 December 2023: \$2,231,000) and \$Nil (31 December 2023: \$80,000) respectively.

2 Review of performance of the Group

Consolidated Statement of Profit or Loss

2H 2024 vs 2H 2023

The overall revenue registered in 2H 2024 of S\$155.77 million was lower by S\$9.18 million or 5.6% than its corresponding period in 2023, mainly attributable to lower revenue from Trading division, offset by higher revenue from Printed Cartons and Labels ("PCL") and Specialty Papers ("SP") divisions. Lower Trading revenue was due to lower demand of raw materials. Higher PCL revenue contribution was mainly due to higher demand from its major customers. Higher SP revenue due to higher demand from customers in Vietnam and Middle East.

Gross profit for 2H 2024 decreased by S\$1.75 million to S\$16.02 million compared to S\$17.77 million in 2H 2023. Gross profit margin down slightly to 10.3% in 2H 2024 from 10.8% in its corresponding period in 2023, primarily due to changes in sales mix and operating cost incurred in Food and Beverage ("F&B") division.

Other income includes a reversal of impairment loss on property, plant and equipment ("PPE") in Dubai of S\$2.46 million in 2H 2024 (2H 2023: S\$2.54 million). Distribution expenses increased by S\$0.51 million mainly due to higher freight cost. Other operating expenses decreased in 2H 2024 mainly due to lower impairment loss on consideration receivable.

FY 2024 vs FY 2023

For FY 2024, the Group's turnover increased from S\$306.40 million to S\$317.54 million mainly due to higher revenue from Trading, PCL and SP divisions. Trading division increased due to higher demand of raw materials offset by lower sale of virgin pulp and jumbo reels to Vietnam. Higher demand from customers contributed to stronger revenue in Indonesia, Vietnam and Middle East operations of the PCL and SP divisions.

Gross profit decreased from S\$34.89 million in FY 2023 to S\$34.00 million in FY 2024. Gross profit margin for FY 2024 declined to 10.7% as compared to 11.4% in FY 2023 due to changes in sales mix, higher Trading sales which yield lower margin and operating cost incurred in Food and Beverage division, which commenced business in second quarter of the year.

Distribution expenses increased by S\$0.83 million in FY 2024 mainly due to higher freight cost.

Net foreign exchange loss in FY 2024 of S\$0.69 million was mainly due to unfavourable foreign currency exchange rates.

Net finance costs for FY 2024 were due to the same factors mentioned above.

The F&B division recorded a loss of S\$1.01 million in FY 2024, reflecting the challenges of operating in a competitive market with both established and new entrants. As a new entrant in the F&B sector, building brand recognition and expanding our customer base require time and investment, which may not yield immediate profitability.
